Advisory Question – Fire Station Property

The VCHPOA is responsible for the maintenance and upkeep of the rental unit on the Fire Station property and for shared maintenance on the Fire Station. The cost for this maintenance increases significantly as the property ages.

Storey County is possibly interested in purchasing the land and facilities currently owned by the association and leased by the Fire Department. If such a purchase were to take place, the community facilities would still be available for use by the association and property owners.

This is a nonbinding question. Discussions are very preliminary. Any sale would likely take more than a year to complete.

Would you be in favor of selling the Fire Station and property to Storey County?
